

ATELIER MEATS

Pioneering Designer Meat

February 14, 2022 – New Brunswick, New Jersey – Atelier Meats Corp. (“**Atelier**” or the “**Company**”) is pleased to provide an update on its senior management team and spotlight its Chief Science Officer (“**CSO**”) and Co-Founder, Dr. Mohit Bhatia. In his role as CSO of Atelier, Dr. Bhatia leads the Company’s efforts to advance and expand its technology portfolio and he will also play an integral role in overseeing and building collaborations with R&D partners.

John Gilbert, strategic advisor for the Company states, “We are extremely pleased to have a world-class scientist such as Dr. Bhatia as part of our leadership team. His diverse and deep experience spans research and technology development, intellectual property protection, manufacturing, tissue engineering, process development and senior leadership, along with a strong track record developing and executing R&D strategies that built significant value. Since joining the Company Dr. Bhatia has played a leading role in cultivating Atelier’s scaffold technology and stem cell platform, and contributing to the growth of the Company’s proprietary technologies.”

Previously, Dr. Bhatia worked with Celgene Corporation for approximately 20 years in various capacities with a leadership position in placenta-based biomaterials, ECM scaffolds and stem cells for more than 15 years. He was responsible for developing several placenta-based products including injectable collagen, extracellular matrix and two commercial products BIOVANCE, an amniotic membrane product and INTERFYL, a connective tissue matrix, both for wound management. He holds several patents for placental biomaterials and has published numerous papers and presented at leading conferences for tissue-based therapies.

Dr. Bhatia received his Ph.D. in biochemistry from New York University and completed post-doctoral training from the Rockefeller University in New York and Harvard Medical School in Boston, MA.

“Atelier’s science is world-class in this exciting and emerging field of lab-grown meats,” said Dr. Bhatia. “I am excited to be part of this exceptional team with the mission to produce healthier and environmentally conscious proteins.”

About Atelier Meats Corp.

Atelier is a biotechnology company dedicated to developing quality, lab-grown meats. Led by a world-class team, with proprietary patent-pending technology, Atelier’s mission is to produce healthier and environmentally conscious proteins for the world - without harming a single animal in the process.
