

# ATELIER MEATS

Pioneering Designer Meat

December 30, 2021 – New Brunswick, New Jersey – Atelier Meats Corp. (“**Atelier**” or the “**Company**”) is pleased to announce the filing of its second U.S. Provisional Patent Application entitled “Methods for Isolation, Expansion and Differentiation of Nonhuman Mammalian Umbilical Cord and Placenta Stem Cells and Their Use for Production of Cultured Meat”.

Dr. Mohit Bhatia, CSO and Co-Founder states “Our first provisional patent application filing focused on our unique scaffold technology. We are pleased to quickly follow that application with the filing of our second provisional patent application which protects key aspects of the stem cells used for the production of our meats. Building and protecting our intellectual property portfolio is paramount as we continue to develop our cutting edge technologies, not only surrounding the stem cells used for meat production, but also our unique scaffold technology, which we feel will be the leading edge of production of cultured meats.”

## About Atelier Meats Corp.

Atelier is a biotechnology company dedicated to developing quality, lab-grown meats. Led by a world-class team, with proprietary patent-pending technology, Atelier’s mission is to produce healthier and environmentally conscious proteins for the world - without harming a single animal in the process.
